PROFESSIONAL SUMMARY

Client-focused **Microsoft Dynamics 365 Business Central Senior Consultant** with over 4 years of consulting and hands-on implementation experience delivering end-to-end ERP solutions, business process optimization, and cloud architecture. Dual-certified in **Business Central Functional Consulting (MB-800)** and **Development (MB-820)**, bridging strategic business requirements with scalable technical execution. Proven expertise guiding C-level and operational stakeholders through digital transformation, conducting system assessments, leading discovery workshops, and coaching delivery teams. Based locally in Brussels (Ixelles) with prior Belgian enterprise support experience and available 100% full-time during business hours while completing an Evening MSc in Management at VUB.

CORE COMPETENCIES & TECHNICAL EXPERTISE

- **ERP Project Delivery & Advisory:** Microsoft Dynamics 365 Business Central (Cloud SaaS & On-Premise), Requirements Elicitation, Gap Analysis, Solution Blueprinting, System Health Checks, SaaS Upgrades & Lifecycle Governance.
- **Business Process Alignment:** General Ledger (GL), Accounts Receivable (AR), Accounts Payable (AP), Bank Reconciliation, Inventory Valuation, Order-to-Cash, Procure-to-Pay, Statutory & Audit Compliance.
- **Technical Architecture & Integration:** AL Language, Table/Page/Report/Codeunit Extensions, Event Subscribers, Telemetry & Performance Tuning (Application Insights), REST/OData APIs, Azure Integration Services (Logic Apps, Functions).
- **Consulting & Leadership:** Stakeholder Management, Trusted Advisory, Workshop Facilitation, User Acceptance Testing (UAT) Lead, Key-User Change Enablement, Junior Consultant Coaching, Agile/Azure DevOps (CI/CD).
- **Connected Microsoft Ecosystem:** Power Platform (Power Automate, Power BI), Microsoft Fabric (DP-600), Agentic AI Business Solutions (AB-100).

PROFESSIONAL EXPERIENCE

Senior Technical Consultant & Solution Lead **Jan 2025 – Sep 2026**
Exquitech *Remote / Hybrid Consulting*

- **ERP Solution Architecture & Delivery:** Spearheaded full-lifecycle Dynamics 365 Business Central implementations for enterprise clients, translating complex client business requirements into sustainable, maintainable cloud ERP solutions.
- **Digital Advisory & Stakeholder Management:** Partnered directly with client CFOs, finance directors, and operational heads in discovery workshops to evaluate as-is processes and design optimized to-be operational blueprints.
- **System Assessments & Cloud Migration:** Conducted functional and technical health checks for legacy ERP environments, authoring actionable upgrade roadmaps and advising on Microsoft SaaS best practices.
- **Team Mentorship & Quality Governance:** Coached and mentored junior and mid-level consultants on clean AL coding standards, functional setup validation, and Azure DevOps CI/CD delivery pipelines.
- **DevOps Velocity:** Engineered automated CI/CD build and release pipelines, reducing deployment cycle times by 40% while maintaining zero-defect production rollouts.

Freelance ERP Consultant (Part-Time / Independent) **Dec 2024 – Sep 2026**
Independent Advisory *Europe & Middle East*

- **Process Optimization:** Advised European and Middle Eastern SME clients on migrating from manual spreadsheets to standardized cloud Business Central finance and inventory modules.
- **Automation:** Designed automated approval flows and data synchronization routines utilizing Business Central APIs and Power Automate, eliminating manual reconciliation overhead.

Technical Consultant – Dynamics 365 Business Central **Oct 2022 – Dec 2024**
Exquitech *Consulting*

- **Core Functional Configuration:** Configured and tested core Business Central modules, including General Ledger, Accounts Receivable, Accounts Payable, Bank Reconciliation, and Inventory Valuation.
- **AL Extension Development:** Built bespoke modular extensions, business logic enhancements, and transactional reports (RDLC/Word) tailored to client operational and statutory needs.

- **API Integrations:** Developed secure REST/OData web services linking Business Central with external e-commerce systems, warehouse logistics platforms (3PL), and Azure SQL services.
- **UAT Leadership & Training:** Supervised User Acceptance Testing (UAT) cycles, authored user manuals, and conducted hands-on training for over 80 key users to guarantee high adoption at go-live.

IT Systems & ERP Support Specialist **Mar 2022 – Aug 2022**
CLD Distribution *Namur, Belgium*

- Delivered operational on-site ERP and systems support for a Belgian commercial distributor, resolving workflow friction across sales order processing and inventory tracking.
- Monitored transaction logs, resolved user authorization issues, and ensured transactional data integrity in accordance with Belgian and EU compliance standards.

CERTIFICATIONS & ACCREDITATIONS

- **Microsoft Certified:** Dynamics 365 Business Central Functional Consultant Associate (MB-800)
- **Microsoft Certified:** Dynamics 365 Business Central Developer Associate (MB-820)
- **Microsoft Certified:** Fabric Analytics Engineer Associate (DP-600)
- **Microsoft Certified:** Agentic AI Business Solutions (AB-100)
- **Microsoft Certified:** Azure Fundamentals (AZ-900, AI-900, DP-900)
- **McKinsey & Company:** McKinsey Forward Program (Problem Solving, Strategic Leadership & Agility)
